## **DETAILED ACTION**

### ***Allowable Subject Matter***

Claims 1-5, 7, 15-19, 21, 32-39, 41-46, 48, 56-58, 60 and 66-83 are allowed.

The following is an examiner's statement of reasons for allowance: The closest prior art is listed on the attached PTO 892 and IDS forms. None of the references or combinations thereof disclose or suggest a method of protecting a conductor in a micromachined device comprising providing a protective covering for said conductor so that the conductor is disposed between the substrate and the protective covering and so that the protective covering is *configured* so as to form a tunnel relative to the conductor as required by the present claims. US Patent 6,809,384 which is a divisional of the present application is merely cited to show the state of the art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
